## Corporate welfare alive and well in Rapid City

Notice: If you are a developer or a large corporate business please read.

You may have money coming from the City of Rapid City. You may apply at the city administration building with the city council and mayor.

Apply now, they are running a special. In addition to lower taxes you will receive 30 acres of free land to do with as you please and a bonus of a city owned visitor center or some other city owned service placed inside your business free. This should help bring more people to your place of business.

This is all free of charge and is very easy to get because the council and mayor have never met a developer or corporate business they didn't like. They never say no.

You also may pay low wages. This is encouraged as to not drive up prices. Also you do not have to pay for health insurance or any other benefits.

Please note fine print: Individuals who are not developers or large corporations need not apply as this special deal is not available to you.

You are the ones that will be paying for it. Corporate welfare is alive and well.

LARRY HALL

Rapid City
